AN ALWAYS-ON CONNECTION TO YOUR FINANCES: ACCOUNTING CS™

What if you had an anytime-anywhere, 24/7 online connection to your financial information? You could exchange files, manage documents, enter daily book-keeping information, pay employees, even work directly with us in real time. All from any Internet connection.

We've made it easy with Accounting CS, a revolutionary new way to track financial data, monitor progress, and set goals. It automates daily bookkeeping, check writing, vendor payments, time entry, and much more, and it eliminates imports, exports, software updates, and other hassles.

It's as easy as online banking or shopping, and it's completely secure. Now you can:

SAVE TIME

- Record bank activity like deposits, ATM activity, debits, credits, and transfers. Information you enter is available to us instantly with no updates, transmittals, or syncing.

- Run reports at any time during the recording period. Because your data is automatically updated in real time, you can pull accurate, up-to-the-minute reports whenever you choose.

- Automate employee and vendor check writing.

- Save time by eliminating imports and exports.

- Print checks right in your office.

- Reconcile online bank transactions automatically.

- See adjustments and notes from us instantly.

AUTOMATE YOUR PAYROLL PROCESS

- Improve withholding accuracy with automated setup.

- Easily handle multiple-department and multiple-location employee processing and reporting.

- Automatically track and pay payroll liabilities.

- Automatically calculate payroll for tipped employees.

- Handle 401(k) and other pre-tax deductions.

- Handle paperless direct deposit transactions.

- Quickly import time from an Excel spreadsheet, or from a variety of supported time clocks.

WHY WORKING IN
THE CLOUD IS BETTER

Accounting CS is built from the ground up to take advantage of cloud computing technology, which hosts your applications and data at secure, off-site data centers. This means you get the benefits of the latest technology, including:

Anytime-anywhere access—You can access your applications and data from any Internet connection, anywhere in the world.

No software installs—Just log on and go to work.

No manual updates—Accounting CS is remotely hosted, so software updates and other maintenance are handled automatically.

State-of-the-art security—Accounting CS uses professional-grade security to keep your data safe in some of the largest, most secure data centers in the world. It uses the industry's most advanced security and reliability measures to keep your data safe.

✓ **Built-in redundancy—**Multiple data locations, Internet connections, and power sources keep your portal up and running at all times.

✓ **Secure password protection—**A comprehensive password system provides you with worry-free access.

✓ **128-bit encryption—**This protects your data as it travels between the data centers and your computer.

READY TO GET STARTED?

Setting up your business with Accounting CS is fast and easy. When you're ready to experience it for yourself, just give us a call or send us an email. We'll be more than happy to get you started.
